

BIO-BLITZ: BIG THICKET NATIONAL PRESERVE

All Taxa Biodiversity Inventory (ATBI)

Dubbed the “Thicket of Diversity” project, the ATBI teams leading scientific researchers with “citizen scientists” to identify and catalogue different groups of plants and animals found within the Preserve. Want to learn about what kind of mushrooms are found in the woods of the Big Thicket or participate in a photography workshop? Come learn about these as well as lesser known things like bryophytes, or water bears.

Date: FRIDAY,
JUNE 13

Time: 6 p.m.—9 p.m.

Contact person: 936-274-1181

Contact person e-mail:
director@bigthicket.org
